This is a message from the State Water Resources Control Board.

Attached is a second public notice regarding the U.S. Army Corps of Engineers' reissuance of the Nationwide Permits (NWP). On October 16, 2020, the State Water Board provided public notice of an application by the U.S. Army Corps of Engineers (Corps) to reissue all NWPs. The Corps reissued 12 NWPs and issued four new NWPs in January 2021. The remaining 41 NWPs are expected to be finalized and published in the Federal Register by the end of the calendar year. The Corps has extended the reasonable period of time to take certification action on these 41 NWPs. The State Water Resources Control Board is preparing to take a certification action on these NWPs.

This public notice can also be found on our website:
