Good afternoon,

Valley Water proposes to decommission the hydroelectric facility as a part of the Anderson Dam Seismic Retrofit Project. This involves surrendering our exemption and as part of this surrender process, Valley Water is making the Draft Petition for Surrender of Exemption available for a 90-day review period. The Draft Petition is a document that explains Valley Water's plan and reasoning for surrendering the existing exemption and it includes our supporting environmental reports. All of the documents are explained in the attached letter and linked below for convenience.

Kind regards,  
Sarah
