Good morning,

As you may know, the County is in the process of developing the Climate Roadmap 2030 (previously referred to as the Community Climate Action Plan). I wanted to share a couple updates:

1. Thank you for filling out the survey back in the spring. We are working on incorporating the information your organization provided on their climate activities into a publicly available online map tool. We also plan to include the contact information your organization provided, to help encourage collaboration. Please contact me if you have any questions about this.
2. We have created an outreach toolkit that your organization can use to present to your members and/or stakeholders about the Climate Roadmap 2030: <https://tinyurl.com/SC-Roadmap-Outreach>. The toolkit includes a meeting agenda, presentation, talking points, project flyer, and comment card. We would greatly appreciate your help in reaching a wide audience in Santa Clara County. Let me know if you have any questions or would like a quick training session on using the toolkit.
3. We have created a virtual visioning board for community members to share their vision for a climate-friendly Santa Clara County: [tinyurl.com/SCCvirtualboard](https://tinyurl.com/SCCvirtualboard). You can post ideas, pictures, comments, and more. Please help us get the word out about this! You can repost/retweet the County's posts on [Facebook](#) and [Twitter](#), or see the [social media toolkit](#) for suggested social media posts and content that could be included in a newsletter. The visioning board will run until late August.

Thanks for your partnership,

**Breann Boyle | Sustainability Analyst**
