Water

and Natural Flood Protection

You're Invited!

Please join Valley Water and the Santa Clara County Department of Parks and Recreation on May 31, 2023, for a meeting to discuss a project to separate Coyote Creek from Ogier Ponds. The planning team will explain the need for the project, describe efforts accomplished so far, and present project concepts. There will also be a question-and-answer session. Valley Water values your input and would like your comments.

The project is partially funded by Valley Water's Safe, Clean Water Program's fish habitat improvements commitment. It is also a fisheries conservation measure for Valley Water's critical Anderson Dam Seismic Retrofit Project.

We hope to see you at the end of May!
